Subject: Re: Dimock examples

OK, talked with Gerry (who is working from home) and he doesn't have the letters, but he has a call into Rich to see if he knows where they can be found. However, Rich is in up north and doesn't have very good cell service. Kelly is in Region 2 and also doesn't have very good cell service.

Ex. 5 - Deliberative

Second email.

The first attachment is a residential report which has descriptions of codes and defines trigger levels and MCLs, etc on the last 2 pages. The second attachment is an example of what we were sending out by round 3 and shows comparison values.

Vicky,

I haven't heard back from Gerry yet, but attached are a number of other Dimock documents that you may be interested in sharing with ORD. I'm not sure how big these files are so I will send two attachments now and two more in another email.

The first attachment below is a redacted version of Dawn's comments to Rich Fetzer. The second is a template of the letters sent to D residents.
